Projects

emHealth — HEALTHCARE BACKOFFICE PORTAL | *React, HTML, CSS, JavaScript*

Built a back-office healthcare portal to efficiently manage and optimize lab appointment workflows. Implemented real-time tracking and analytics to monitor appointments and improve operational decision-making. Designed a streamlined, responsive interface that enhances productivity and simplifies daily lab management tasks.

MEDAPTO – HEALTHCARE NEWS AGGREGATES |*React, HTML, CSS, JavaScript*

Built a platform that aggregates verified medical news from trusted councils, government health departments, and recognized medical journals. Developed summarized news cards for quick reading and added source links for full verification.Designed a clean, responsive UI for medical students and healthcare professionals.

MINI FRONTEND PROJECTS | *HTML, CSS*

I created frontend projects to enhance my knowledge in Frontend using the HTML and CSS to create a Single Page CV, Basic HTML Website, **Personal Portfolio, Changelog Component, Testimonial Cards, Date picker UI, Accessible From UI, Image Grid Layout and Tool Tip** projects which had help me to improve myself to create a dynamic webpage.

ELECTRO NET SHOP | *HTML, CSS*

This project involves designing and developing a fully functional e-commerce website using HTML, CSS . The website design aims to provide a user-friendly platform for customers to browse and purchase products online.
